

Institutional Letter of Support (2 pages max)

Please include a Letter of Support from a representative of your institution or place of employment that confirms you have the time and ability to attend and actively participate in the IMPACT-AD course, if selected. The letter should also describe your current role in AD/ADRD research and/or clinical trials and how participating in this course will facilitate your career growth.

Mentors/PIs may submit only one recommendation per track. As an applicant, it is your responsibility to confirm that your recommender is not providing a recommendation for another individual applying to the same track.
